

50 year of journal GENETIKA  
Snežana MLADENović DRINIĆ and Kosana KONSTANTINOV  
Serbian Genetic Society

Journal Genetika publish original scientific papers, short communication, review articles and letters to the editor in the field of genetics in English with summary in Serbian language. The journal is published three times per annum. Full papers published in „Genetika“ from 2002. to nowadays is available online (<http://www.dgsgenetika.org.rs/izdavastvo-casopis-radovi-en.php>) as well as abstracts published from 1969 to 2001.

The journal of Serbian Genetics Society "Genetika" was promoted 1969. as Acta Biologica Iugoslavica (ABI) Series F – Genetika. Dr.Janko Dumanovic was appointed for the Editor in Chief. Since 1997. the new international Editorial Committee took over editing of journal starting from Vol. 29, No.2, 1997. At same time Dr. Kosana Konstantinov was appointed as Editor in Chief. From vol. 40 the Journal change name in Genetika and publisher is Serbian Genetic Society. At that time copublisher was Maize Research Institute "Zemun Polje" and Institute of Field and Vegetable Crops Novi Sad, since 2016. copublisher is Maize Research Institute "Zemun Polje". Since 2002, the all article was aviable online, and from 2010 journal is on SCI and have impact factor. From 2017. dr.Kosana Konstantinov was appointed as Honorary Editor and dr. Snežana Mladenović Drinić as editor of journal.

Journal Genetika publishes papers in the field of genetic research all organisms including: genetics of plants, animals, microorganisms, human genetics, molecular genetics, Population and Evolutionary Genetics, Mutagenesis and Genotoxicology, genomics, functional genomics, breeding organisms, biotechnology.

During 50 years in Journal Genetika was published 1924 scientific papers, average 38,5 paper per year. From 1969 to 1978 were published 299 226 papers, 1979-1988 309 papers, 270 papers from 1989-1998, 272 papers during 1999-2008, and 774 paper from 2009 to 2018.

From 5250 the authors who have published papers in the journal Geneka, 62% are domestic authors, in the period from 2009 to 2018 authors from abroad have released 364 paper and domestic authors 400. Authors were from 56 countries. Structure of published papers according topic was: plant breeding 848, plant genetic 218, medical genetic 207, population genetic 144, cytogenetic 94, molecular genetics 141, quantitative genetics 79, mutagenesis 61, and genetic of microorganisms 53, evolutionally genetic 18, and genetics of animals 60. As object plant was in 1305 papers, human 275, animal 226, microorganisms 82, and 56 papers with common topic.
