(no registration necessary)

11. March 2022, 12.30-18.00 CET

"200 years Gregor Mendel: of peas, cows and people"

A Science-to-Public symposium highlighting the relevance of genetics and genomic research in modern life by looking at examples from crop plants, domestic animals, humans, and how to communicate science to the wider audience.

Scientific contributions by Brigitte Poppenberger (Munich, DE), Sebastian Michel (Vienna, AT), Tosso Leeb (Bern, CH), Alessandra Stella (Milano, IT), and Johannes Zschocke (Innsbruck, AT)

Featured talk on science communication: Günther Mayr (ORF, Leitung Wissenschaftsredaktion):

"Wissenschaft versus Wut - Sind Gefühle Teil der DNA? | Emotionen aus der Spritze -

Verständnis schaffen als Immunisierungskampagne gegen Halbwahrheiten"

Symposium may be attended either in presence or in livestream

Venue: Festsaal der Universität für Bodenkultur Wien (BOKU), Gregor Mendel Strasse 33, 1180 Wien / Austria

or Livestream: https://youtu.be/3_K5U9HUC68
